

A New Medicare Advantage Model Could Transform How Care is Delivered at End-of-Life

November 17, 2022

By Josefina Aquino, Director, Product Management at VNS Health

From Healthcare-Business Review

By Our Experts

The organization I work for—VNS Health—has been part of a demonstration project being conducted by the Centers for Medicare & Medicaid (CMS), in which participating Medicare Advantage (MA) plans directly manage the Medicare Part A hospice benefit for their members. [Read more.](#)
