

Bringing Visibility and Inclusivity to Transgender Healthcare

March 31, 2022

From Gay City News

Thought Leadership

Asia Lyons spends her days working with clients as part of VNS Health's Gender Affirmation Program, which provides home-based care to transgender and nonbinary individuals in New York City following gender affirmation surgery. Lyons is a licensed social worker, meaning she is particularly equipped to help clients — but her professional expertise is just one part of what she brings to the people she serves.
